OAK STREET MANUFACTURING

DURAFINISH OUTDOOR STAMPED STEEL BASES

Specially coated to withstand outdoor conditions
Constructed of stamped steel for unparalleled strength and stability
Superior to cast iron bases in that stamped steel will not fracture under heavier weights
Easy two piece construction
Includes stainless adjustable levelers
Standard height finished at 30" with table top attached
Bar height finishes at 42" with table top attached
Bar height applications use one size larger base than listed below

ProWood, E-Wood, Wood Edge and Solid Wood Care

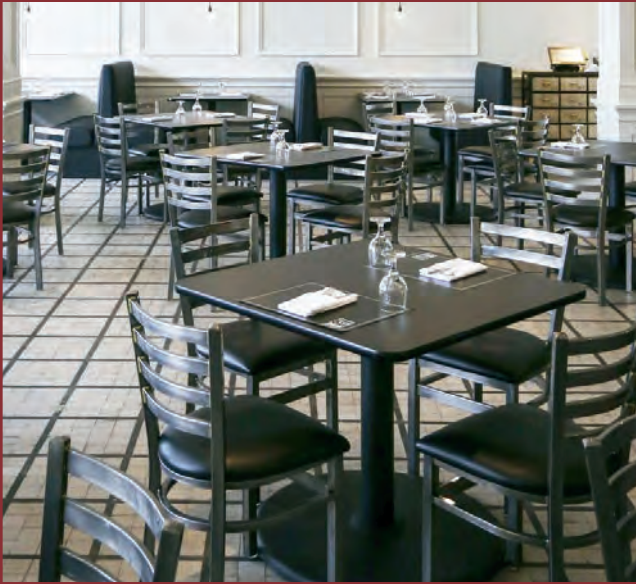

Gently cleanse with a soft cloth dampened with mild detergent and water solution. Wipe dry with a clean soft cloth. Scratches in the wood can be repaired using a colored wax repair stick.

Spills of liquid should be wiped dry immediately. Do not use ammonia, bleach, degreasers or abrasive cleaners. Avoid prolonged or excessive exposure to direct sunlight, high temperature or high or low humidity. Improper care will void the manufacturer's warranty.

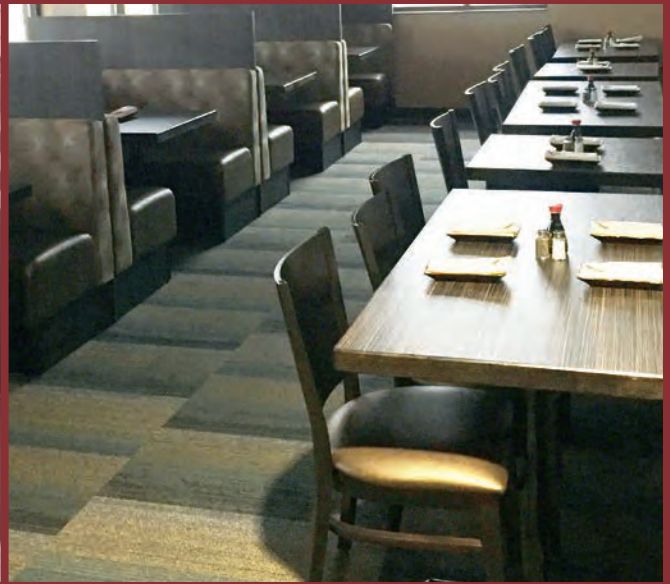

It is the customer/user's responsibility to maintain a 30% humidity level to accommodate ProWood, E-Wood or solid wood tops.

If also installing new china dinnerware with unglazed feet, please check the bottom of the product carefully for sharp or rough edges as these can mar the surface of the table top and will void the manufacturer's warranty.
