A-FRAME COMMUNITY TABLE BASE

- 16 gauge 1.6mm tubular steel
- Designed for 30" x 72" table tops
- Base ships knockdown to save on freight! Simple base assembly - leg frames attach to main frame via a block joint connection - only a rubber hammer is needed, no bolting or screwing!
- Table top (sold separately) attaches to base in both leg frames and main frames for added stability (screws included with table top purchases)
- Adjustable non-marring glides
- Leg dimensions: 2" x 1" x 24" W x 28.25" H (overall height of base)
- Shipping weight 30lbs
- *Quick Ship* product
